James Barton Design-Build Inc. wins two coveted Remodeler of Merit Awards (ROMA) from The Builders Association of the Twin Cities. Both in the “Special” category, one project featured a wine cellar the other a handicap-accessible kitchen complete with ceiling track installed from an in-home elevator to the bathroom.

Since 1982, BATC has presented the ROMA Award to Remodelers to recognize creativity, design and the remodelers’ ability to meet the client’s requirements and expectations. Winners were selected by a team of remodeling professionals after evaluating photographs, floor plans and descriptions of the project. The remodeling judges know that they’re not just looking for the prettiest spaces, they take into account the challenges and customer wishes.

“Our ongoing commitment to excellence for our clients is essential to the success of our company,” said James Madsen, owner of JBDB. “We are truly honored!”
