

Congressman John Kline honored James Madsen from James Barton Design-Build and his wife Mary Jo Lageson and two sons Erik Lageson and Jared Madsen at the “Star of the North” Special Recognition ceremony at the Lakeville Area Arts Center.

James and his family donated their time along with other members from the Builders Association of the Twin Cities/Builders Outreach Foundation to help build homes for those who lost their homes in the devastating earthquake that hit Haiti over a year ago.

“Our family looks forward to traveling back to Haiti in 2011 to continue rebuilding homes for families still living in shacks or tent cities,” said James.

“The need is so great, we want to go back and help in any way possible,” said Mary Jo.
