

FOR IMMEDIATE RELEASE

***Remodeling* Magazine Names JBDB One of America's Top 100 Remodelers**

Apple Valley, MN—September 6, 2019—James Barton Design-Build, a premier Minnesota renovation and home remodeling company, was named one of *Remodeling's* 2019 top 100 remodelers in North America.

A leading B2B publication among residential remodelers, *Remodeling* released their top picks of full service firms leading the way in both professional and savvy home building designs and remodeling services. Candidates were carefully selected based on several industry factors that highlight their dedication to integrity, generosity, and success from an enterprise, employee, and customer perspective. To rank among the top 100 remodeling elite, businesses were measured by the following criteria: (1) total annual revenue vs. projected revenue, (2) employee benefits, (3) years of remodeling expertise, (4) types of renovations performed, (5) types of renovations that required specialty services, and (6) sales and marketing metrics.

“We are honored to be named one of *Remodeling's* 2019 top 100 remodelers,” said James Madsen, founder and president at JBDB. “Since first opening our doors in 1997, we continue to work closely with our clients, suppliers, and subcontractors in order to uphold the highest values and standards in the remodeling industry. Our goal is to ensure that every project we complete exceeds expectations and brings new life to every home design.”

Members of the JBDB team have been invited to Orlando, Florida for the annual Remodeler's Summit on September 24-25, 2019 to celebrate their achievement with other leading remodelers across the country.

For questions about JBDB's remodeling services or to learn about the company's other outstanding awards in the home design and construction industry, visit jbdb.biz or contact them at info@jbdb.biz.
